

OLD WORLD SUITE™ IMPACT

HOPE'S® WINDOWS, INC. HIGHLIGHTS HURRICANE AND IMPACT-RATED BRONZE AND STEEL WINDOWS AND DOORS

HOPE'S CONSTANTLY TESTS WINDOW AND DOOR RATINGS TO ENSURE OPTIMAL RESILIENCE

Jamestown, NY – Hope's Windows, Inc., the nation's leading manufacturer of custom-designed, solid steel and bronze window and door systems, highlights its hurricane and impact-rated bronze and steel windows and doors, designed to provide unparalleled protection against extreme weather conditions. Hope's constantly tests its products' ratings to ensure they meet the highest standards, including IBC, IRC, FBC, and Miami-Dade County Standards. Hope's investment in continual testing means customers can enjoy confidence in the resilience of Hope's products.

Hope's Old World Suite proprietary arrow shaped muntins pays tribute to our century-plus commitment as the world's finest custom window and door fabricator.

STRENGTH AND STYLE FOR THE MOST DEMANDING ENVIRONMENTS

Hope's hurricane and impact-rated windows and doors combine durability with timeless elegance, offering superior security and aesthetic appeal for both residential and commercial properties. These products include the Jamestown175™ series, ideal for projects requiring oversize windows and doors with narrow sightlines, and the Landmark175™ series, which offers an even narrower sightline for operable windows and doors. Hope's classic Old World Suite™ with its classic coped three point profile, allows for casement windows to achieve hurricane and impact ratings.

Other steel profiles with continually-tested hurricane and impact ratings include Hope's One55™ series and Hope's 5000 series™. Additionally, the Empire Bronze™ versions of the Jamestown175™ and 5000 series™ also feature hurricane and impact ratings, ensuring that these opulent and bespoke bronze profiles withstand even the harshest weather conditions.

Hope's commitment to quality and innovation assures that every window and door delivers exceptional performance, even in challenging weather conditions. With a focus on resilience and style, Hope's impact-rated product lines are crafted to enhance the safety and beauty of any building, providing peace of mind and enduring value to homeowners and architects alike.

ABOUT HOPE'S® WINDOWS, INC.

Hope's Windows, Inc. has handcrafted the world's finest windows and doors for over a century. Hope's custom-designed, solid hot-rolled steel and bronze doors and windows are universally praised for their strength, durability, and unparalleled aesthetic value. Hope's prides itself on a long-standing commitment to safety and certification, and the company subjects its products to more third-party testing than any other steel window and door manufacturer. Inherent material strength, along with Hope's meticulous manufacturing processes, finishing techniques and extensive testing, result in windows and doors that last in even the most extreme environments – sustaining their beauty and performance for generations.
